Serene Waters Pet Cremation Authorization For Aquamation

ADDITIONAL PRODUCTS

PRICE FOR ADDITIONS:

AUTHORIZATION:

This authorization form is required to be completed and signed prior to the final disposition of your pet. Aquamation IS AN IRREVERSIBLE AND FINAL PROCESS. It is important that you understand the Aquamation process and the different options available prior to signing it. Please ask us any questions you may have. I represent that I have the right to authorize the Aquamation of the pet's remains and warrant that I am the owner or an authorizing agent of the owner. I have read and initialed all required Pet Disclosures as listed. I have read and understand the description of the different available aquamation processes described, including the final disposition/return of aquamated remains.

RELEASE AND CERTIFICATION:

I agree to release and indemnify Serene Waters Pet Cremation, the Veterinarian, and their owners, members, officers, directors, agents and employees from any claim, liability, cost, or expense resulting from their reliance on or services or other performance consistent with the directions, declarations, representations, authorizations, and agreements herein. I agree that the liability of Serene Waters Pet Cremation, including without limitation for negligent acts, is limited to a refund of the Aquamation fees paid by me. I have read, understood, and agree to all pages of this document.

TERMS AND CONDITIONS

Payment is due in FULL at the time of drop off/pick up and prior to pet's aquamation. All personal possessions or materials (collars, toys, etc.) must be removed prior to aquamation. Any items left at facility are not guaranteed to be returned to pet owner. The owner or authorized agent understands the Aquamation process: after all memorial services are performed(ink/clay prints, fur clipping, etc.), pet will be placed in the Aquamation machine. Pet will either be placed in its own individual compartment (private), or placed in a chamber with other pets (communal). Your pet will remain in the machine for approximately 20 hours while warm alkaline water will break down the soft tissue. Once the process is complete, the mineral remains along with the ID tag will be placed in an area for drying. Once the mineral remains have dried, they will be processed into ash and either and placed in a biodegradable bag which will be returned to owner (private package) or scattered by Serene Waters staff. By signing, you agree to all information provided on this form.

I authorize Serene Waters Pet Cremation permission to use my pet's name, photos and likeness for publicity, copy right purposes, illustrations, advertising and web content.
